UNED PCE Access

Preparation for
university entrance
exams for foreigners

How do the PCE exams work?

At LANDL Formation, we are committed to providing the best preparation for the Specific Competency Tests (PCE) for access to Spanish universities via the UNED, aimed at international students. Below, we explain how these exams work and how LANDL Formation can help students achieve their academic goals.

Understanding the UNED PCE Access Tests

The PCE are assessments designed for those international students who wish to equate their high school studies with the Spanish educational system to gain access to universities. The tests include four compulsory exams:

- 1. Spanish Language Competency Test (B2 level):** Assesses the students' ability to understand and produce texts in Spanish.
- 2. Foreign Language Test:** Allows students to demonstrate their skills in a second language.
- 3. Two Specific Competency Tests:** Students select two subjects based on their interests and the requirements of the university course they aspire to pursue.

How Does LANDL Formation Support International Students?

Personalized Preparation: At LANDL Formation, we offer courses designed to prepare students in each of the areas assessed by the PCE. Our personalized approach ensures that each student receives attention tailored to their specific needs.

Updated Materials: We stay up-to-date with the latest changes in the exams and adjust our teaching materials to reflect these updates, ensuring that students are well-prepared for any new developments in the exams.

Mock Exams: We conduct simulated tests under conditions similar to the official exams, allowing students to familiarize themselves with the format and improve their time management and exam strategies.

Continuous Support: Our teachers are dedicated to resolving doubts and providing the necessary support to ensure that each student can reach their full potential.

Process at LANDL

Admission and Study Process at LANDL Formation for UNED PCE Exams

At LANDL Formation, we accompany the student from the registration process through to their entry into university. Here is each step of the process detailed:

1. Registration at LANDL Formation:

- The student registers at LANDL Formation to prepare for the university access exams (PCE) offered by the UNED.

2. Baccalaureate Equivalency Management:

- LANDL Formation handles the management of the high school diploma equivalency for the student and prepares all necessary documents to ensure that the equivalency is granted.

3. Preparation for Selected Exams:

- We begin preparing the specific exams chosen by the student, taking into account the scores required for access to the desired university.

4. Registration for Official PCE Exams:

- In February, we handle the registration of the student for the official PCE exams through the UNED.

5. Handling of Issues with the UNED:

- We resolve any administrative or other issues that may arise with the UNED during the process.

6. Taking the PCE Exams:

- The student takes the UNED PCE exams during the May-June period.

7. Management of University Pre-registrations:

- Once the exams are passed, we manage the student's pre-registrations for up to three universities and up to twenty university programs according to their preferences and results.

8. University Registration:

- With the pre-registration approved and the student admitted, we proceed with the registration at the chosen university, informing the student of the class schedules, which begin in September.

9. Start of University Studies:

- The student begins their studies at the university, marking the start of a new phase in their academic training.

This structured process ensures that each student receives the necessary support to successfully navigate the Spanish university access system, maximizing their admission opportunities to the course and university of their choice.

Subjects to be chosen by the student (max. 2)

#	Subject	Field of Study
1	German	All
2	Biology	Sciences, Science and Technology
3	General Sciences	Sciences, General
